POTUS Visit, Los Angeles, Los Angeles County (New/Final)

President Obama arrived in Los Angeles last night and is expected to remain in the area until early afternoon today. A traffic advisory is in effect for some surface streets. There are no activations or requests for Region assistance related to this visit.

Weather of Concern

Northern California

- Rain showers are expected off and on through the weekend, with most rain dissipating by Monday but continued unsettled weather is expected next week as well.
- Rain accumulations will be light, far less than an inch in most locations.
- Thunderstorms are possible on Saturday, as well as hail.

Southern California

- A weak upper level trough of low pressure will move across Southern California through Friday with a chance of showers at times in most areas.
- A colder Pacific weather system will slowly approach the southwestern California coast Saturday and Saturday night, with more widespread showers expected along with a slight chance of thunderstorms.
- There is the possibility of locally heavy rain, especially with any thunderstorms.
- The showers are forecast to diminish on Sunday as the storm system moves quickly inland over Southern California.
- With any heavy rain, there is the potential for mud and debris flows to occur in and around recent burn areas.
- Mountain snow showers above 6500 to 7000 feet can also be expected this weekend, with significant accumulation possible above 7000 to 7500 feet.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

High pressure now centered over the northern Rockies continues to drift eastward this morning as low pressure west of California continues to dig south and eastward. This leaves our forecast area under high clouds, a marine layer along the coast, and weak divergence aloft. This morning through this afternoon the atmosphere should moisten enough to allow for some afternoon and evening showers and thunderstorms across Northern California and, possibly, into portions of the Siskiyou's and Oregon Cascades. Probabilities for thunder are greatest over Siskiyou County today.

Eureka Weather:

Shower chances will increase over northwest California continuing into next week as multiple storm systems affect the region and temperatures will return to milder and more seasonable values. Best chances for showers over the next several days will be across the interior mountains.

Reno Weather:

Low pressure over southern California will bring a chance of showers and possible thunderstorms later today, with a cooler and wetter pattern continuing through this weekend. Additional storm systems may bring more precipitation through next week, especially Wednesday through Thursday when temperatures could drop below average.

San Francisco Weather:

Showers will return to the area today Friday and continue through much of the weekend with the potential for thunderstorms south of San Francisco Bay on Saturday. Additional shower chances possible late next week.

Sacramento Weather:

Shower chances increase heading into the weekend with a few thunderstorms possible. Unsettled weather likely to continue next week.

Weather

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

A series of Pacific storm systems will move inland across California during the next several days. Scattered showers and isolated thunderstorms are expected across the central California interior today through the weekend with snow over the high Sierra. Temperatures will lower to seasonable levels today with little day to day change into early next week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A couple of low pressure systems will bring an unsettled showery weather pattern to the area through Monday with a slight chance of thunderstorms today and Saturday. Dry conditions will prevail Tuesday and Wednesday then another storm may move in late next week.

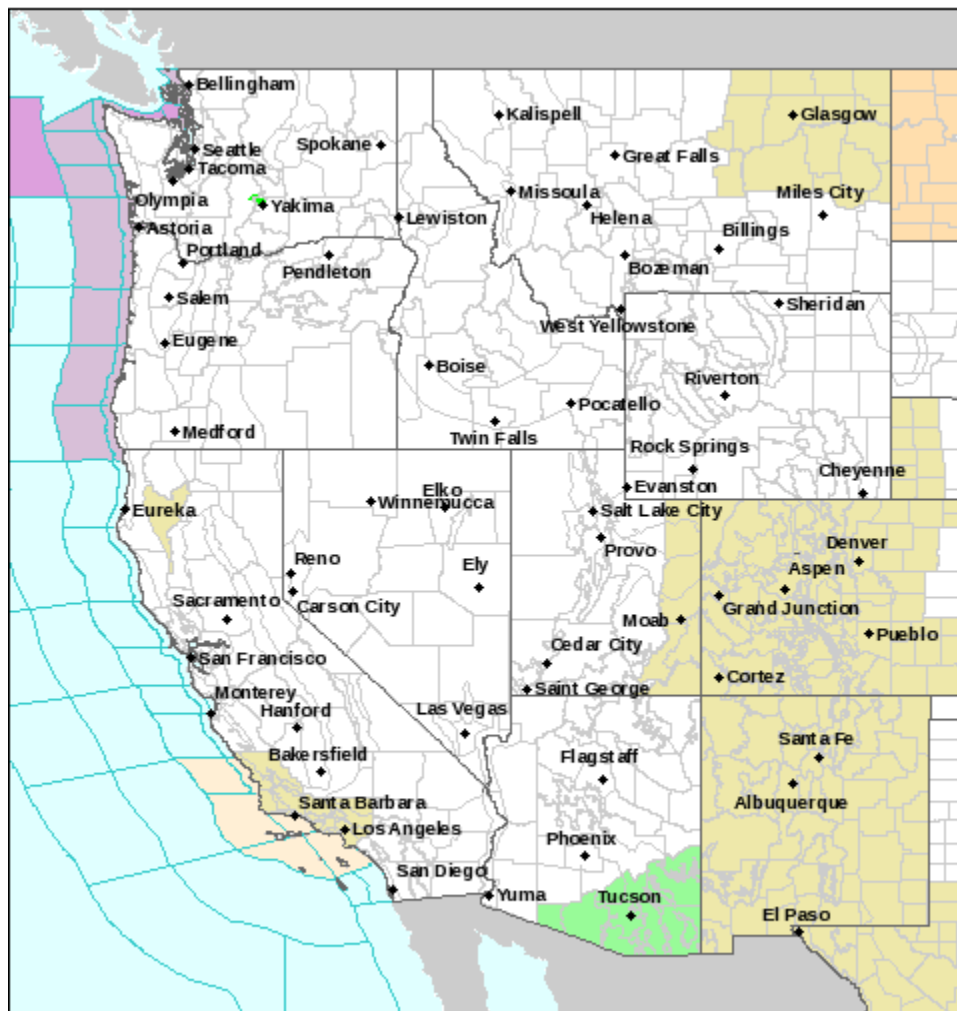

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Low pressure to the southwest will bring scattered light to locally moderate showers today with possibly a thunderstorm or two over the mountains and deserts. A stronger more unstable storm moves across Southern California Saturday afternoon through Sunday resulting in moderate to heavy showers and some thunderstorms. A weaker system arrives Monday creating another period of showers for the region. Likely dry Tuesday through Wednesday as weak high pressure temporarily moves in aloft. There is the potential for another storm system moving through late in the work-week.

Southeast California Weather:

The storm track will remain over the region through early next week. A Pacific low pressure system will linger over the region today generating a chance of showers and thunderstorms. Several more Pacific weather systems are forecast one Sunday and another on Monday. Therefore unsettled weather is expected over the region along with below normal temperatures and more humid conditions.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 59 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 10 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni' Nation (Del Norte), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

NCBRT Updated Course

Advanced Forensic Investigations for Hazardous Environments (PER-228)

This course addresses response in a hazardous environment, with emphasis on evidence collection and recovery, as well as the paradigm shifts that are required for crime scene investigators to safely conduct a crime scene investigation in these types of environments. The course is designed so that participants will develop the required knowledge, skills, and ability to investigate a chemical, biological, radiological, nuclear, and high-yield explosive (CBRNE), toxic industrial chemical (TIC), or hazardous environment crime scene for the identification, documentation, presumptive field testing, preservation, and collection for laboratory analysis of CBRNE/TIC and non-CBRNE/TIC forensic evidence.
